PROFILE

I work at KNAPP, where I build Angular front ends and Java and C#/.NET applications. I also maintain CI/CD tooling, teach agentic AI development, conduct technical interviews, and develop MyFTB. I maintain Pi Extensions, a TypeScript suite for coding-agent harness engineering and safer agent workflows.

EXPERIENCE

Feb 2020 – Present	Software Engineer · KNAPP Systemintegration GmbH - Develop Java, C#/.NET, Xamarin, and Angular applications with Oracle Database and Figma. - Maintain the TeamCity CI/CD platform and Podman deployments. - Give lectures about agentic AI development and conduct technical interviews.
Jul 2019 – Aug 2019	Summer Worker · KNAPP Systemintegration GmbH
Jul 2018	Intern · KNAPP Systemintegration GmbH
Jul 2017 – Aug 2017	Intern – IT Department · Medical University of Graz
Jul 2016 – Aug 2016	Intern – IT Department · Medical University of Graz

TECHNICAL SKILLS

Application development	Angular, TypeScript, C#/.NET, Java, Xamarin, WPF
Agentic development	LLM-assisted development (GPT & Claude), Coding-agent harness engineering
Data and delivery	Oracle Database, TeamCity CI/CD, Podman, Kubernetes
Additional experience	Figma, Swift, C/C++, SAP ERP

EDUCATION
